Notice

Electronic bid packages are available for the March 18,2010 10:30 A.M. Letting. Instructions for using the electronic bidding system (EBS) are available from the Office Engineer's office. The printed bid sheets created from the EBS system must be placed in front of the bid item pages in the bidding proposal and will be turned in with the bid documents along with the proper disk. They should be placed and attached there without detaching the original proposal. (The paper copy of the bid items is the official bid document.) Please remember that you must use the electronic bidding system (EBS) when bidding projects in the highway Letting. Failure to use the EBS system could mean possible rejection of bids. Plans and proposals should be ready for sale on February 25,2010.

If ordering plans only please call the Print Services Branch at 521-2586.

A Pre-Bid Conference will be held at 10:00 a.m. on March 05, 2010. concerning this March 18 Bid Opening at the Oklahoma Department of Transportation (ODOT) Commission Room. Please review plans and proposals and send your comments and questions to the Office Engineer Division (attn: Masoud Pajoh) as early as possible at Fax: (405) 522-0972 or phone: (405) 521-2625. Please include JP, County, Letting date and Call Order (if known) in all your correspondence with Office Engineer. This will help both ODOT and Contractor.

All proposals not mailed must be turned into the Print Services Branch off the main lobby of the ODOT building until 30 minutes before the Opening. From 30 minutes prior to the Bid Opening until the time of the Bid Opening, bid proposals must be turned in directly to the ODOT Commission Room located on the east side of the lobby.

Please write the call order number of the jobs you are bidding electronically on the disk label of the original disk. Be sure to save your work and any revisions you receive to your original disk and submit that disk with your bid.

On this Letting, Bidders do not need to be pre-qualified in order to bid the Stimulus pedestrian improvement projects. These projects have numbers which contain STIM and the suffix EH.

CERTIFIED PAYROLL – FEDERAL RULE CHANGE

The U.S. Department of Labor, Wage and Hour Division, has revised regulations, pursuant to the Davis-Bacon and Related Acts and the Copeland Anti-Kickback Act to better protect the personal privacy of laborers and mechanics employed on covered construction projects.

The final rule, 29 CFR Parts 3 and 5, has an effective date of January 18, 2009. The revisions shall be applicable to federally assisted construction contracts entered into pursuant to invitations for bids issued or negotiations concluded on or after January 18, 2009.

The rule change states, in part, “ The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR Part 5.5 (a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead, the payrolls shall only need to include an individual identifying number for each employee.”

The rule suggests that the last four digits of the employee’s social security number be used as the employee’s identification number. There is no prescribed method required by U.S. DOL.

The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and current address of each covered worker, and shall provide them upon request of the federal and/or state agency responsible for the contract for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of the rule for a prime contractor to require a subcontractor provide addresses and social security numbers to the prime contractor for its own records, without weekly submission of such information to the sponsor government agency.

If the contractors utilize an electronic payroll system, a change from social security number to a personal identification number may require programming changes. If it is more convenient for the contractors, FHWA agrees that they may go ahead and make the necessary changes on all existing contracts, rather than only on those entered into after the effective date.

The provisions of the contracts will be revised to reflect this rule change as soon as practical. Should you have questions, you may contact the Regulatory Services Office at (405) 521-6046.

Until further notice all projects which include a pay item for Contractors Quality Control (Item 643) will require the bidder to bid a minimum amount for that item.

This minimum will be specified at the end of the Special Provision 648-1QA(a)99, Payment for Contractor's Quality Control. You may increase this amount as necessary to cover the estimated Quality Control expenses.

Failure to include at least this amount will be considered grounds for rejection of Contractor's bid as nonresponsive.

Reminder

The low bidder must submit to the Office Engineer Division written confirmation from the DBE that it is participating in the contract as provided in the prime contractor's commitment. This may be submitted with the bid or not later than the Department's close of business on the Wednesday following the bid opening. Otherwise the bid shall be considered nonresponsive and shall be rejected by the Department.

Please ensure that the DBE commitment provided in the proposal matches the written confirmation.

Only DBE firms listed for the Letting month on the following web site are eligible for DBE credit:
<http://www.okladot.state.ok.us/regserv/dbeinfo/def2005.htm>

Reminder

Please be sure that bid bonds are stapled to the back of the proposal as instructed on the cover sheet of all proposals.

Do not disassemble the bidding proposal in any way.

Note

Only written, Email, Fax and in-person orders will be accepted.

The Order Form included in this Notice may be used to order plans and proposals for this letting.

Please check off the proposal(s) in which you are interested and fax to:
