

**NOTE: This Document has been Replaced**

**OHD L-45  
METHOD OF TEST FOR  
DETERMINING THE SPECIFIC GRAVITY AND UNIT WEIGHT  
OF COMPACTED BITUMINOUS MIXTURES USING THE CORELOK™ APPARATUS**

Use AASHTO T 331 with the following exceptions:

1. Add reference to OHD L-14 and replace references to AASHTO T 166 with OHD L-14.
2. Delete section to calculate density of the specimen. Density, air voids, unit weight, and bulk specific gravity are detailed in OHD L-14.

Revision Date	Revision Description
8/15/14	Method completely replaced to reference AASHTO T 331 and OHD L-14.
