FOREWORD

Since 1933, the Oklahoma State Legislature and/or the Oklahoma Transportation Commission have designated Oklahoma's highways and bridges in commemoration of Oklahomans. These commemorations are found in the "Oklahoma's Commemorative Highways & Bridges" publication. The Oklahoma Department of Transportation Strategic Asset & Performance Management Division publishes this biennial report to inform readers of all facilities that have been named.

Oklahoma has acknowledged the outstanding contributions and brave service of its citizens through the naming of these facilities. To date, four hundred and ninety-five (495) commemorative designations have been placed on Oklahoma's highways and bridges.

Some commemorations listed in this book may no longer exist on the state highway and bridge system. Monuments might have been removed due to widening, reconstruction, or relocation of a highway or bridge. A few monument plaques have been stolen, vandalized, or moved to nearby museums or historic sites.

This commemorative publication is divided into five sections. Located in the "Laws & Policy" section is the current Transportation Commission policy for commemorating a highway or bridge. The "Signs & Monuments" section contains photos of the type of monuments that were used in the past and examples of signs that are used today. Information about Oklahoma's highway and bridge commemorations is found in the "Chronological Guide" section. A state map showing what facility has been named is provided in the "Commemorative Map" section. Last is the "Master Index" section where all commemorations are listed in alphabetical order. Rather than a page number, each commemoration is given a number where it could be located in the "Chronological Guide" section. There is also an index to highways for helping to determine which facility has been named.

More information about some commemorations can be found online at the Department's website, <http://www.okladot.state.ok.us/memorial/index.htm>. To obtain a copy of this report or receive more information about a named highway or bridge, contact the Oklahoma Department of Transportation, Strategic Asset & Performance Management Division, 200 N.E. 21st Street, Room 3A-7, Oklahoma City, Oklahoma 73105-3204.

LEGISLATIVE COMMEMORATION STANDARDS

Before an individual or organization requests a Bill or Resolution be written by a member of the Oklahoma Legislature for the commemoration of a highway or bridge, the new standards and procedures, as provided in 69 O.S. §§ 1600 (as amended by SB 1524, 2014), and 1600.1 (as amended by SB 42, 2015), should be considered. The procedures and law are included in this portion of the commemorative guide. Acting under the authority of the aforementioned statutes, the Department of Transportation has established a procedure to assess and collect the cost of signs naming highways and bridges on the state highway system to honor individuals who **were not** members of the U.S. Armed Forces killed while participating in contingency operations. If it is the desire of an individual or group to request that legislation be introduced to put forth legislation to name a road or bridge for someone who was not a member of the U.S. Armed Forces that was killed while participating in contingency operations, an inquiry as to the production and placement costs of the sign should be made through the office of the requestor's legislative representative.

Highways and bridges should not have multiple commemorative designations, unless otherwise directed by an Act of the Oklahoma Legislature. Therefore, it is requested that a memorial commemoration not be made for a highway or bridge that is currently designated in honor of a person or group. The maps and index in this guide will help to determine which highways or bridges have currently been commemorated.

After legislation is in place to name a highway or bridge, the effective Bill or Resolution is presented to the Oklahoma Transportation Commission at a regularly scheduled meeting. Upon approval by the Commission, the commemoration signs are ordered and fabricated through the Department's sign shop and shipped to the corresponding Division for installation under the direction of the Division's Traffic Engineer.

In accordance with the standards listed in Commission Rule 730:15-3-1, consideration may be undertaken by the Oklahoma Transportation Commission to name highways, bridges and other facilities which are part of the state highway system. If consideration is made, it shall require a unanimous Commission vote to approve commemorative signs. The Commission is comprised of eight members and occasionally the absence of a Commissioner is unavoidable, whereby the item is tabled until the next full Commission meets. The schedule of the Commission meetings can be found online at the Department of Transportation's website.

Should any questions arise regarding the new signage law or departmental procedures, please feel free to contact the ODOT Legislation & Policy Coordinator, at (405) 522-8000.

In view and because of the reasons above assigned, the said bridge constructed over the Boggy River on Highway No. 19 in said County of Atoka is and the same is hereby named, "The C. B. Memminger Bridge."

Taken from *Journal of Senate of the Fourteenth Legislature of the State of Oklahoma*, Regular and First Extraordinary Sessions Laws, 1933, pages 508-509.

The above Senate Resolution was the first naming of highway and bridge within Oklahoma. It was named in 1933 during the 1st Extraordinary Session of the Fourteenth Oklahoma Legislature. Because State Senator C. B. Memminger was responsible for championing the need for the Highway Department to construct this bridge, the SH 19 Bridge over Boggy Creek was named in his honor. However, the monument was not erected until 1970, after C. B. Memminger passed away January 9, 1970. He was a veteran of World War I, and his career in public service began as a Page in the very first Oklahoma Legislature.
