Procedure for Handling Contractor Requests  
Construction Control Directive No. **19891128**

**February 15, 2002**

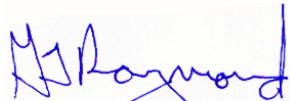

---

Scope: To identify the responsible party for handling contractor design requests after the award of a contract.

When contractors have questions or proposals related to design after contract award, all communication shall be made through the Resident Engineer/Manager assigned to the project.

The Design Divisions have been directed to refer contractors to the Resident Engineer/Manager with regard to these matters.

All questions prior to the award of a contract shall be directed to the Office Engineer Division.

George Raymond, P.E.  
Construction Engineer
