Joint Sealant & Elastomeric Mortar  
Construction Control Directive No. **20000831**

**February 15, 2002**

---

Scope: To identify an acceptable specification substitution for the Rapid Cure Joint Sealant and Elastomeric Mortar pay items.

The specification for Rapid Cure Joint Sealant and Elastomeric Mortar for use in bridge decks (Section 701.08(h)) has been modified for the 1999 Standard Specifications For Highway Construction. You may accept Rapid Cure Joint Sealant and Elastomeric Mortar meeting the specification of 1999, on projects that were let under an earlier specification with no further action.
