This is for a Federal Project. This is to certify that the listed material was used on the above project and the material is in complete conformance with the governing specifications and the attached mill test reports and certificates of materials origin represent the material used. This statement is made for the purpose of establishing the materials acceptance under the Buy America Certification (23 CFR 635.410) and the Contract Special Provisions. All iron and steel manufacturing processes, including protective coating, for the domestic materials described above occurred in the United States of America.

This is for a non-Federal Project. Hence Buy America requirement does not apply
