

**OKLAHOMA DEPARTMENT OF TRANSPORTATION
SPECIAL PROVISIONS
FOR
SALVAGING TOPSOIL**

These Special Provisions revise, amend, and where in conflict, supersede applicable sections of the Standard Specifications for Highway Construction, English, Edition of 1988, and the Supplement thereto, Edition of 1991, the Standard Specifications for Highway Construction, Edition of 1996, or the Standard Specifications for Highway Construction, Edition of 1999 as applicable. Units of measurement are provided in the subsections in both English and Metric equivalents. The units applicable for this project will be those specified in the project plans.

205.05. METHOD OF MEASUREMENT. *(substitute the following:)*

Measure both type A and type B salvaged topsoil in a stockpile by the cubic yard (cubic meter) in accordance with Subsection 109.01(a). This measurement will not be subtracted from excavation or embankment quantities. When designated on the plans, type A salvaged topsoil may be paid as a lump sum and will not be measured.

NOTE: Additional or second handling as defined in Subsection 202.04(a) will not be measured for payment. Type A salvaged topsoil will be measured as fifty-percent complete when the material has been removed from areas of excavation and embankment. Type B salvaged topsoil will be measured as 100-percent complete when stockpiled.
