SPECIFIC INFORMATION FOR SPECIAL PROVISION 431-3QA

The profilograph or profilometer shall be provided by _____
The profilograph or profilometer shall be operated by _____

ROADWAY (Roadway requirements do not apply - ☐)

In Table I of special provision 430-2QA the roadway classification shall be:

Class (I, II, or III) _____ station: _____ to _____
Class (I, II, or III) _____ station: _____ to _____
Class (I, II, or III) _____ station: _____ to _____

For stations where use of Table II is specified below, Table I will be used only when its use will result in a higher pay factor than would be derived from Table II.

Table II of special provision 430-2QA shall be used for:

station: _____ to _____
station: _____ to _____
station: _____ to _____

BRIDGE (Bridge requirements do not apply - ☐)

In table III of special provision 430-2QA the bridge floor classification shall be:

Bridge No. _____ Class (I or II) _____
Bridge No. _____ Class (I or II) _____
Bridge No. _____ Class (I or II) _____
Bridge No. _____ Class (I or II) _____
Bridge No. _____ Class (I or II) _____

There will be no separate payment for providing and/or operating a profilograph or profilometer. When the proposal contains a pay item for Contractor's Quality Control, such costs, and any other costs related to smoothness measurements or evaluations shall be included in the price bid for that item. Otherwise they shall be included in other items of work.
