ES. Executive Summary

1. Who performed the disparity study?.....	ES-2
2. What is the Federal DBE Program?	ES-2
3. Why did ODOT undertake the disparity study?	ES-3
4. What does a disparity study include?.....	ES-4
5. What proportion of firms available for ODOT contracts are MBEs and WBEs?	ES-5
6. What share of ODOT contract dollars might be expected to go to MBEs and WBEs?	ES-6
7. What share of ODOT contract dollars did go to MBEs and WBEs?	ES-6
8. Was there a disparity between utilization and availability of MBEs and WBEs on ODOT contracts?	ES-7
9. What are conditions for minorities and women within the Oklahoma marketplace?	ES-9
10. How can ODOT use study results when setting an annual goal for DBE participation?	ES-9
11. How can ODOT use study results to project the portion of its annual DBE goal to be met through neutral means?	ES-10
12. Can ODOT continue to use race- and gender-conscious measures such as DBE contract goals?	ES-12
13. Which racial/ethnic/gender groups of DBEs might be considered eligible for any future race- and gender-conscious program elements?	ES-12
14. What are ODOT's next steps?	ES-12

I. Introduction

A. Background.....	I-2
B. Study Team	I-7
C. Study Scope.....	I-8

II. Types and Locations of ODOT Transportation Contracts

A. Collection and Analysis of Prime Contract and Subcontract Data	II-1
B. Types of Work	II-2
C. Geographic Distribution of FHWA-funded Contract and Subcontract Dollars	II-5

III. Conditions for Minorities and Women in the Local Marketplace

A. Entry and Advancement as Employees	III-1
B. Business Ownership	III-4
C. Access to Capital	III-8
D. Business Success	III-11
Summary	III-14

Table of Contents

IV. Analysis of MBE/WBE/DBE Availability

A. Purpose of the Availability Analysis.....	IV-1
B. Collecting Information about Firms Potentially Available for ODOT Work.....	IV-2
C. Number of Minority-,Women-and Majority-owned Firms Included in the Availability Database.....	IV-6
D. Definitions of MBE/WBEs, DBEs and Potential DBEs	IV-7
E. Calculation of MBE/WBE Availability as Inputs to the Disparity Analysis	IV-9
F. Base Figure for Overall Goal for DBE Participation in FHWA-funded Contracts.....	IV-12
G. Implications for any DBE Contract Goals	IV-13
H. Other Approaches Examined.....	IV-14

V. ODOT Utilization of Minority-and Women-owned Firms

A. Overview of the Utilization Analysis.....	V-2
B. MBE/WBE and DBE Utilization in ODOT Transportation Contracts	V-3
C. MBE/WBE and DBE Utilization in ODOT Construction Contracts	V-5
D. MBE/WBE and DBE Utilization in ODOT Engineering-related Contracts	V-6

VI. Disparity Analysis for ODOT Contracts

A. Overview of Disparity Analysis Methodology.....	VI-2
B. Overall Disparity Results for ODOT Contracts	VI-5
C. Disparity Results for Construction Contracts	VI-10
D. Disparity Results for Engineering Contracts.....	VI-12
E. Analysis of Statistical Significance of Disparities.....	VI-15
F. Summary	VI-18

VII. Exploration of Possible Causes of Any Disparities

A. Are disparities found in some regions of the state and not in others?.....	VII-1
B. Why are there disparities for ODOT construction contracts?	VII-1
C. Why are there disparities for ODOT engineering contracts?	VII-12
Summary	VII-19

VIII. Overall Annual DBE Goal

Step 1. Establishing a Base Figure	VIII-1
Step 2. Making Any Needed Adjustment to the Base Figure.....	VIII-2

Table of Contents

IX. Percentage of Overall Annual DBE Goal to be Met Through Neutral Means

A. What has been the past experience of the agency in meeting its overall annual DBE goal?	IX-3
B. What has DBE participation been when ODOT has not applied contract goals (or other race-conscious remedies)?	IX-3
C. What is the extent of race-neutral efforts that the agency could have in place for the next fiscal year?	IX-9
D. Other Considerations	IX-9

X. Future Implementation of the Federal DBE Program and Programs for State-funded Contracts

A. Federal Requirements in Implementing the Federal DBE Program	X-1
B. Additional Program Options for ODOT State-funded Contracts	X-7

Appendices

A. Legal Framework and Analysis	A-1
B. Utilization and Case Study Data Collection	B-1
C. Collection of Availability Information	C-1
D. Entry and Advancement in the Oklahoma Construction and Engineering Industry	D-1
E. Business Ownership in the Oklahoma Construction and Engineering Industry	E-1
F. Success of Businesses in the Oklahoma Construction and Engineering Industry	F-1
G. Access to Business Credit	G-1
H. Description of Data Sources for Marketplace Analysis	H-1
I. Summary of Anecdotal Interviews	I-1
J. Analysis of MBE/WBE Availability	J-1
K. Detailed Disparity Results	K-1
