CONTROL SECTION MAPS

FOR THE STATE HIGHWAY INVENTORY DATA

PUBLISHED MARCH 2018

STRATEGIC ASSET & PERFORMANCE MANAGEMENT DIVISION

FOR PDF FORMAT, GO TO WWW.OKLADOT.STATE.OK.US/MAPS/CONTROL-SECTION/INDEX.HTM

INTRODUCTION

Effective Jan 1, 2018, this Control Section Map Book shall supersede all previous printings. The maps contained herein have been changed to conform to the Oklahoma Highway Data File. All lengths are recored to the nearest 0.01 hundredth mile / kilometer. If beginning or ending point locations are in doubt, refer to the Control Section Log. Any errors found in this report should be brought to the attention of the Strategic Asset & Performance Management Division, GIS Management Branch. The suffix P on a control section number denotes Projected Highway. Normally, the route number on Projected Highways will be P & S. Henceforth, control section numbers and lengths will be revised only when construction changes require it or when, due to route number changes, there is no longer a continuous route number that can be assigned to the entire section.

The Strategic Asset & Performance Management Division, GIS Management Branch, is responsible for assignment and revision of control section numbers and lengths. Contact them for control section information not contained in this publication at (405) 521-2727 or 521-2728.

Control section numbers must contain the county number. For location identification purposes, they normally assigned a continuous route number. In this report, they are shown with the numerical portion of the route first, the county code second, and the control number last.

Hard Copies of the Control Section Map Book, at a cost, are available upon written request from the Office Services Division. Free copies, in PDF format, can be downloaded at www.okladot.state.ok.us/maps/control-section/index.htm.

The map displays the Cherokee National Forest area, with the proposed Cherokee Expressway route highlighted in red and green. The route starts near the intersection of US-42 and US-76, passes through Tahlequah, and continues towards the northeast. Key locations and features include:

- Counties:** Delaware, Mayes, Wagoner, Adair, Sequoyah, and Muskogee.
- Wildlife Management Areas (W.M.A.):** Sparrowhawk, Tenkiller, Cookson, and Cherokee.
- Preserves (P.H.A.):** Cherokee, Ft. Gibson, and Sequoyah.
- Key Locations:** Tahlequah, Hurlbert, and various smaller communities like Teresita and Oakes.
- Roads:** US-42, US-76, and various state and county roads.
- Distances and Mileage:** Various distance markers are provided along the route, such as 10-11-10 (19.61 | 31.56) and 82-11-24 (17.55 | 28.24).
- North Arrow:** Located in the top right corner.
