

Oklahoma DOT Materials Listing Method: **11068c-LM**  
 Revised: 1/9/2013 – Page 1 of 2

Qualification Level Material		
Material Code	Description	Spec. Ref.
qual018	(QM) Asphalt Conc Aggregate, Coarse	708.02(A)

Sampled / Tested Material		
Material Code	Description	Spec. Ref.
aggr062	Superpave Aggregate, Coarse	708.02

Materials Qualified and Listed to P/S			
Note	Mat'l Code	Description	Spec. Ref.
	qual018	(QM) Asphalt Conc Aggregate, Coarse	708.02(A)
O	*aggr011	Eco Base/CTB Alt2 Aggregate, Combined	703.02
O	*aggr012	Eco Base/CTB Alt1 Aggregate, Fine	703.02
O	*aggr013	Eco Base/CTB Alt1 Aggregate, Coarse	703.02
O	*aggr014	Eco Base/CTB Alt2 Aggregate, Fine	703.02
O	*aggr015	Eco Base/CTB Alt2 Aggregate, Coarse	703.02
M	aggr062	Superpave Aggregate, Coarse	708.02
M	aggr016	Open Gr Bitum Base Aggregate, Combined	708
M	aggr018	Cover Aggregate No 1	703.04
M	aggr019	Cover Aggregate No 2	703.04
M	aggr020	Cover Aggregate No 3	703.04
M	aggr021	Cover Aggregate No 3C	703.04
M	aggr022	Cover Aggregate No 1, Precoated	703.04
M	aggr023	Cover Aggregate No 2, Precoated	703.04
M	aggr024	Cover Aggregate No 3, Precoated	703.04
M	aggr025	Cover Aggregate No 3C, Precoated	703.04

\*Not added if material is chert

**Notes for Above Table**

M = Mandatory – All material used on Oklahoma DOT Specification projects must first have a satisfactory listing for the **Qualification Level Material**, thus acquiring the material to be approved listed for them.

O = Optional – Material may be qualified by project sampling prior to incorporation into project If samples can be taken and tested early enough in advance. Approval at project level has no bearing on Qualification Level test data or Qualification Level Material listings.

**When Restrictions Apply**

Whenever test results indicate that the aggregate would not be suitable for use in all types of asphalt, select "Restrictions Apply" in the Source Type drop list for the qual018 listing. This will \*flag the web listings to advise that published test results should be reviewed. Whenever restrictions apply, do not list any Materials Qualified and Listed to P/S from the table above that are not appropriate due to the restrictions.

Oklahoma DOT Materials Listing Method: **11068c-LM**  
Revised: 1/9/2013 – Page 2 of 2

**Definitions**

Qualification Level Material - The material queried and reported on the (QM) Approved Lists appearing on the website. This material is not associated to the Producer/Supplier until such time that the qualification level has been achieved. No Sample records are ever created using this material and no test templates are associated to it. Effective and Expiration Dates (when relevant), as well as actual Approval Status for the qualification level are associated to this, and only this material.

Sampled / Tested Material – The material actually physically sampled and tested for the Qualification Level. Qualification test data templates are associated to this material and qualification sample records are created using this material to document qualification level tests. Only this material is listed for newly qualifying Producer/Suppliers until completion of qualification.

Materials Qualified and Listed to P/S – All materials listed to Producer / Supplier upon testing satisfactorily for the Qualification Level. With the exception of the Qualification Level Material, no Expiration Dates will be entered and:

Approval Status for Mandatory (M) listings will be set to “Verify qual018 Listing”.

Approval Status for Optional (O) listings will be set to “Verify qual017 or qual018 Listings”.

Revision Date	Revision Description
5/20/2010	Updated per the 2009 Standard Specifications. Updated specification references.
1/13/2011	Updated to include “When Restrictions Apply” section.
1/9/2013	In Materials Qualified and Listed to P/S table, Mat'l Code column, added asterisks to materials that are not listed to P/S if material is chert.
