

Notice of Public Meeting

All interested persons are hereby given notice that the Oklahoma Department of Transportation (ODOT) proposes to construct a relief route for US 287 at Boise City, Cimarron County as part of the Ports to Plains Corridor Improvements from Laredo, Texas to Denver, Colorado. ODOT's consultant on this project, Cobb Engineering Company, has scheduled a public meeting to discuss the proposed project. The meeting will be held at 7:30 p.m., Thursday, January 29, 2004, in the Boise City Grade School Cafeteria located at 402 SE 4th in Boise City.

Exact location, design and right-of-way requirements for this proposal have not been determined. The purpose for the informal meeting is to discuss proposed highway corridors and request information from the public to further assist ODOT in the identification of critical social, economic and environmental effects that may result from the project.

ODOT strives to accommodate the needs of all citizens, including those who may be disabled. If you would like to attend this meeting but find it difficult because of a disability, architectural barrier, language barrier, or another special need, please contact Ms. Kelly Farmer and we will make a sincere effort to assist your needs.

Other questions prior to the meeting may be directed to:
