Questions? Comments?

If you have any questions or comments about the Oklahoma Department of Transportation's proposed project, please visit www.odot.org/meetings/other.php to fill out an official comment form, or send an email to m-coordinator@odot.org for any questions you have.

Purpose Of Meeting

The purpose of this meeting is to present the revised configuration and request public input about the Department's proposed improvement at I-235 / 10th Street / Harrison Avenue in Oklahoma City, Oklahoma.

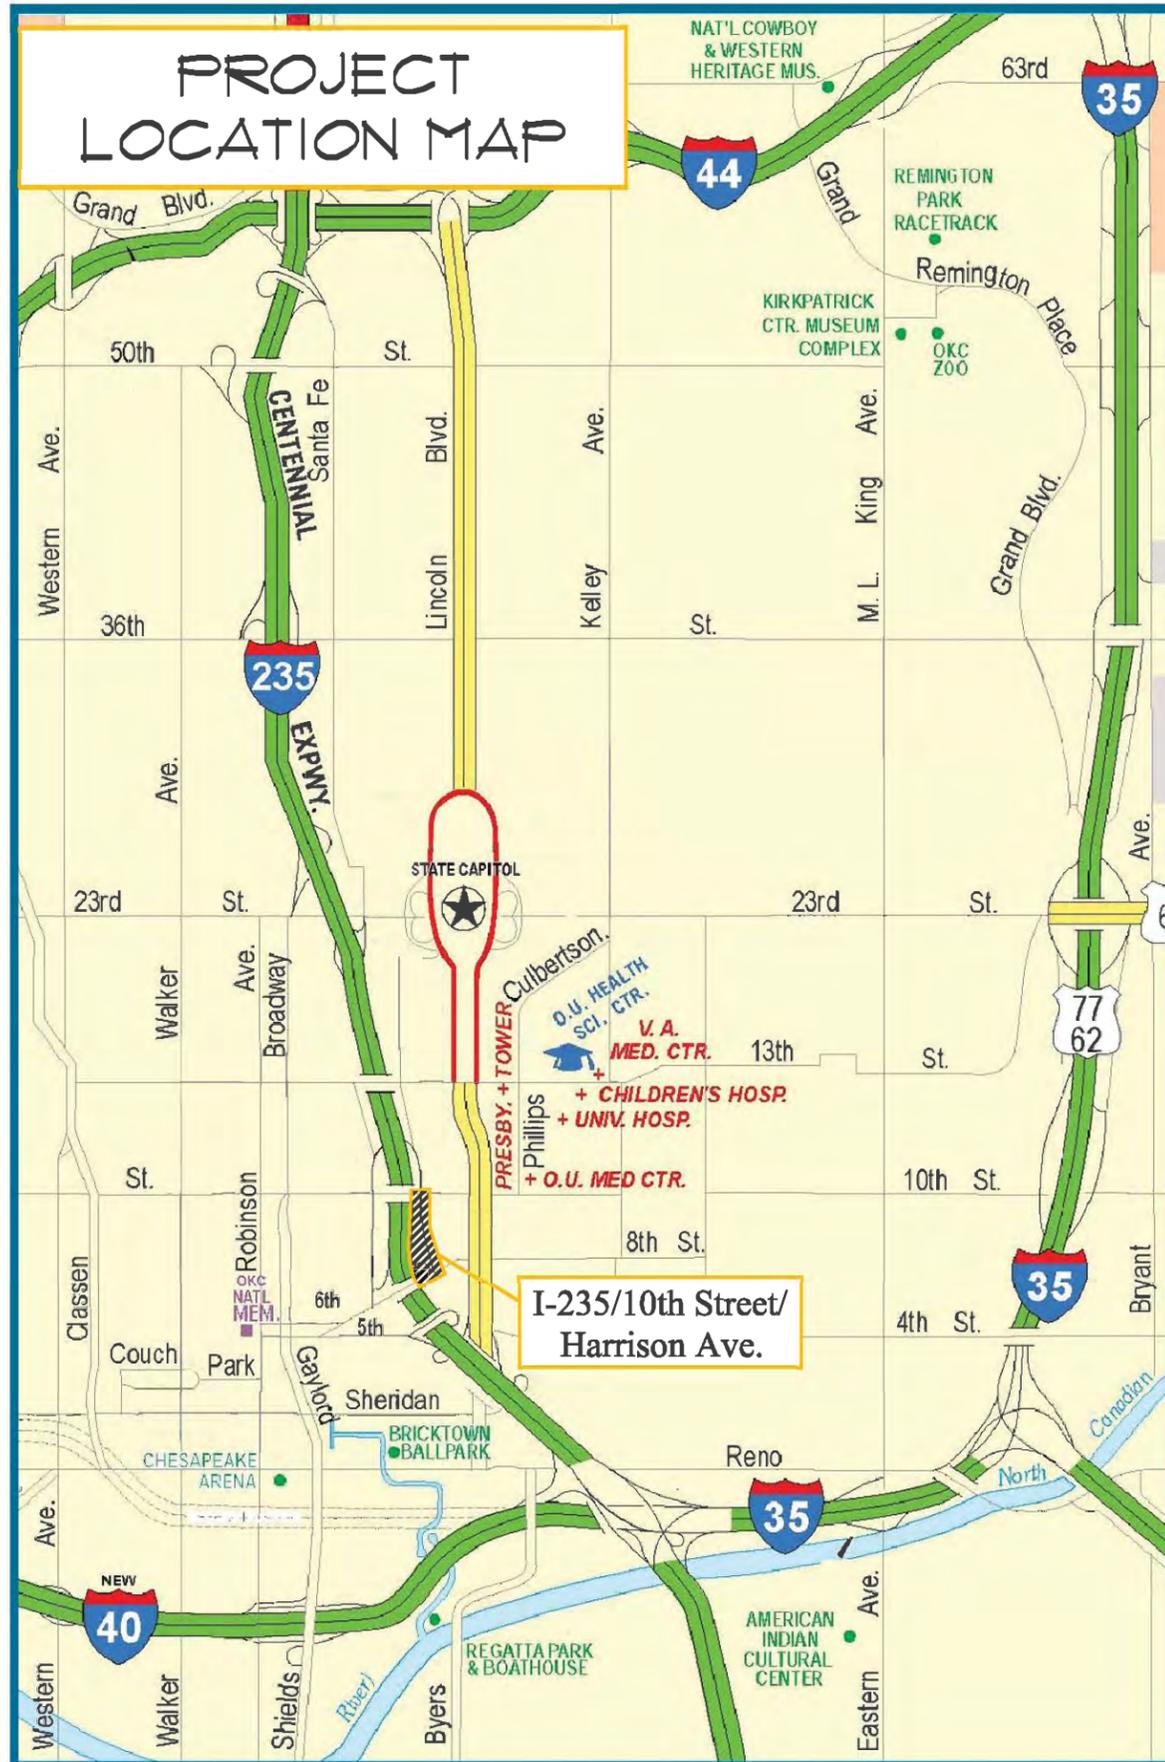

Purpose Of Project

The purpose of the project is to correct the sharp horizontal curve on the ramp and to provide direct connection to N.E. 10th Street off Northbound I-235.

Project Description

Over the past few months, Oklahoma City was presented with an opportunity to partner with a proposed new technology center located in the southeast corner of I-235 and 10th Street. The footprint of this proposed development provided an opportunity to evaluate improving the existing Harrison Avenue loop ramp. This evaluation resulted in a superior configuration that included a direct ramp to 10th Street combined with a large, safe, and improved loop ramp to Harrison Avenue. This new configuration also eliminated the need for Central Avenue to be constructed from 10th Street south to Harrison Avenue.
