NOTICE OF PUBLIC MEETING

PLEASE TELL YOUR FRIENDS & NEIGHBORS

The Oklahoma Department of Transportation (ODOT), in cooperation with the Federal Highway Administration (FHWA) is proposing to improve SH-29 from 2.6 miles east of US-81 extending east for approximately 9.1 miles. The existing two lane road, with no shoulders and limited sight distance, will be reconstructed to a two lane road with twelve (12) foot wide driving lanes, eight (8) foot wide shoulders, and improved sight distance. Several alternatives were studied to improve SH-29 while considering cost, right-of-way requirements, and environmental constraints associated with each alternative. SH-29 will be reconstructed mostly on an offset alignment to the north, except in the vicinity of the Bray store and Bray-Doyle Public Schools, where it will be on the existing alignment to minimize environmental impacts and allow highway traffic use during construction. The project will also include replacement of the bridges within the project limits. The construction will be done as two separate projects in different federal fiscal years.

A public meeting is being held to explain the alignment selection process, present the proposed alignment and environmental issues associated with it, and seek public input before finalizing the design.

Additional information about the project and the upcoming meeting can be obtained from **Greg Worrell**, ODOT Environmental Project Manager, at 200 NE 21st Street, Oklahoma City, OK, 73105, (405) 522-8014 or gworrell@odot.org.

If you require special accommodations for the meeting, please direct your request to **Frank Roesler III** ODOT Public Involvement Officer, at 200 NE 21st Street, Oklahoma City, OK 73105, (405) 521-2350 or froesler@odot.org, at least three (3) working days in advance of the meeting date.

WE LOOK FORWARD TO SEEING YOU THERE
