TRANSPORTATION IMPROVEMENT PROGRAM FEDERAL FISCAL YEARS 2003, 2004, 2005

**LAWTON METROPOLITAN AREA
TRANSPORTATION IMPROVEMENT PROGRAM
FEDERAL FISCAL YEARS 2003-2005**

AMENDMENT

1. 22 ft. passenger vehicle - funded by Great Plains Improvement Foundation and the Oklahoma Department of Human Services
 - a. Notice given on May 31, 2002, in the Lawton Constitution that the LMAPC was soliciting comments concerning the amendment of the Federal Fiscal Year 2003 - 2005 Transportation Improvement Program (TIP) to include the purchase of a paratransit vehicle by GPIF. The notice included the location, date and time that the LMAPC would consider the amendment.
 - b. Approved by LMAPC - June 17, 2002.
 - c. Adopted by Transportation Policy Committee - June 18, 2002.

**LAWTON METROPOLITAN AREA
TRANSPORTATION IMPROVEMENT PROGRAM
FEDERAL FISCAL YEARS 2003-2005**

RESOLUTION NO. 02 - ____

A RESOLUTION ENDORSING THE TRANSPORTATION IMPROVEMENT PROGRAM FOR THE LAWTON METROPOLITAN AREA FOR FEDERAL FISCAL YEARS (FFY) 2003, 2004, 2005.

WHEREAS, Section 134 of Title 23, United States Code (USC) requires a Transportation Improvement Program (TIP) for Metropolitan Planning Organizations; and

WHEREAS, the LMAPC was designated by the Governor of the State of Oklahoma as the Metropolitan Planning Organization for the Lawton Metropolitan Area; and

WHEREAS, the TIP is a three year prioritized program of transportation projects receiving federal funding; and

WHEREAS, the Lawton Metropolitan Area Planning Commission opened a public review and comment period from February 14, 2002 through March 30, 2002 to solicit public comments on the TIP; and

WHEREAS, the Lawton Metropolitan Area Planning Commission in accordance with their adopted Public Involvement Process held a public hearing on April 10, 2002.

NOW, THEREFORE, BE IT RESOLVED, BY THE LAWTON METROPOLITAN AREA PLANNING COMMISSION:

1. The Lawton Metropolitan Area Planning Commission endorses the Federal Fiscal Year 2003 - 2005 TIP.

ADOPTED this 10th day of April, 2002

David Means, Chairman

Approved as to form and legality this _____ day of _____, 2002.

CITY ATTORNEY

RESOLUTION NO. 02 - ____

A RESOLUTION ADOPTING THE TRANSPORTATION IMPROVEMENT PROGRAM FOR THE LAWTON METROPOLITAN AREA FOR FEDERAL FISCAL YEARS (FFY) 2003, 2004, 2005.

WHEREAS, Section 134 of Title 23, United States Code (USC) requires a Transportation Improvement Program (TIP) for Metropolitan Planning Organizations; and

WHEREAS, the LMAPC was designed by the Governor of the State of Oklahoma as the Metropolitan Planning Organization for the Lawton Metropolitan Area; and

WHEREAS, the TIP is a three year prioritized program of transportation projects receiving federal funding; and

WHEREAS, the Lawton Metropolitan Area Planning Commission solicited comments during a public review and comment period from February 14, 2002 through March 30, 2002 and held a public hearing on April 10, 2002 to adopt the TIP.

NOW, THEREFORE, BE IT RESOLVED, BY THE TRANSPORTATION POLICY COMMITTEE:

1. The Transportation Policy Committee adopts the Federal Fiscal Year 2003 - 2005 TIP.

ADOPTED this 18th day of April, 2002

Cecil E. Powell, Chairman

Approved as to form and legality this _____ day of _____, 2002.

TRANSPORTATION IMPROVEMENT PROGRAM
FEDERAL FISCAL YEARS 2003-2005**

Metropolitan Planning Organization

Each urbanized area in the U.S. over 50,000 persons has a board called a Metropolitan Planning Organization (MPO) to plan and endorse federally funded transportation projects. The Lawton Metropolitan Area Planning Commission (LMAPC) has been designated by the Governor as the MPO for the Lawton Metropolitan Area (LMA). As the MPO, the LMAPC is responsible for conducting a continuing, comprehensive, and cooperative (3-C) transportation planning process. This responsibility encompasses the development of a long range transportation plan to meet the future 20 year transportation needs and development of the Transportation Improvement Program (TIP). The transportation study area includes all area within the city limits (excluding Fort Sill) and portions of Comanche County. A map on page 18 illustrates the study area, which extends three miles beyond the city limits of Lawton.

The City, County, the Oklahoma Department of Transportation (ODOT), Fort Sill Military Installation, Lawton-Fort Sill Regional Airport, City Transit Trust and other local, state and federal agencies are responsible for providing transportation facilities or services and work with the MPO in preparation of the TIP and transportation plan.

Committees

The Transportation Technical Committee (TTC) is an advisory committee which provides a forum for discussing transportation issues as they relate to plans, programs, and individual projects. This Committee includes representatives from the City, Lawton-Fort Sill Regional Airport, LATS, local community, ODOT, the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), and Fort Sill Military Installation.

The Transportation Policy Committee (TPC)

reviews and makes final approval on all transportation planning documents. This includes policy determinations concerning the transportation plan and the TIP.

The Lawton Metropolitan Area Air Quality Committee (LMAAQC) was established by the Lawton City Council and MPO to provide recommendations on air quality issues. Members of the Committee include representatives from the health industry, community leaders, media and other local, state and federal governments.

What is the TIP?

The TIP is important because no federally funded transportation project can be implemented unless it appears in the TIP and in the 2025 Long Range Transportation Plan (LRTP). The TIP includes projects on the Interstate, Freeways, Arterials and collectors. Also included are safety, transportation enhancement and transit projects. Projects are submitted by the Oklahoma Department of Transportation, local governments, social service organizations applying for FTA Section 5310 vehicles, and native American tribes. The total cost of all TIP projects cannot exceed the amount of funding that is reasonably expected to be available during the period covered by the TIP.

Every two years the ODOT and the MPO update the TIP in a collaborative effort. In addition, the Governor or his authorized representatives approve the updated TIP. The public will have a reasonable opportunity to comment before approval. Amendments and revisions of the TIP may occur at any time during the fiscal year.

Projects identified in the TIP are consistent with the 2025 Long Range Transportation Plan (LRTP) that was adopted in November 2000. The LRTP is a long-range comprehensive transportation plan that establishes goals, objectives and policies as well as identifies the long-range transportation needs that will meet the area's mobility and air quality needs.

**LAWTON METROPOLITAN AREA
TRANSPORTATION IMPROVEMENT PROGRAM
FEDERAL FISCAL YEARS 2003-2005**

This programming document is required to identify those transportation projects over the next three fiscal years that will receive federal funding. The current TIP planning period is for Federal Fiscal Years (FFY) 2003-2005. The TIP is a compilation of projects utilizing various federal, state and local funding programs. Only projects with a dedicated funding source or sources are allowed in the TIP. Therefore, FFY 2003 is the highest priority and is most eligible for implementation. The tables on pages 7 through 13 list projects and funding available for FFY 2003-2005. Table 1 summarizes all surface transportation and aviation projects, followed by an itemization table of each year. Please note that aviation projects receiving federal funds are included but their prioritization is separate from the surface transportation projects to facilitate implementation.

Funding Sources

The TIP is developed in compliance with joint Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) regulations within the Transportation Equity Act for the 21st Century (TEA-21). Projects that use federal funds that are shown within the TIP follow these regulations:

Congestion Mitigation Air Quality Funds (CMAQ)

- These funds are for projects to educate the community about the harmful health effects of transportation related ozone.

Bridge Maintenance Program - This program provides funding for small scale bridge improvement projects such as painting, minor repairs, seal coat/waterproofing, etc.

Enhancement Activity - All projects must be related to the intermodal Transportation System. The required relationship must be one of function, proximity or impact and meet at least one of the ten enhancement categories. (Facilities for Pedestrians and Bicycles, Safety and Education

Activities for Pedestrians and Bicyclists, Acquisition of Scenic Easements/Historic Sites, Scenic or Historic Highway Program, Landscaping and Other Scenic Beautification, Historic Preservation and Rehabilitation & Operation of Historic Transportation Buildings, Control and Removal of Outdoor Advertising, Archaeological Planning and Research, Water Runoff Mitigation, and Establishment of Transportation Museums.

Federal Transit Administration Section 5303 -

This funding is for MPO to perform transit related planning.

Federal Transit Administration Section 5307 -

This fund can be used for capital funds for eligible preventive maintenance costs. The funding is distributed annually by apportionment based on population, population density and bus revenue miles of service. The Transit Trust Authority applies directly to FTA for these funds.

Federal Transit Administration Section 5309 -

This program provides discretionary funding for capital improvement projects such as the purchase of buses or the construction of operating and maintenance facilities. The Transit Trust Authority applies to ODOT to receive these funds.

Federal Transit Administration Section 5310 - This

program provides funding to private non-profit agencies for capital improvements for the provision of transportation services to elderly and disabled persons.

Interstate Maintenance Program - These funds can be used only by ODOT for resurfacing, restoration, and rehabilitation of the Interstate Highway System.

National Highway System (NHS) - This funding category can only be used by ODOT and includes all interstate and other major U.S. routes and state highways. In the LMA the roadways that are on the NHS are: US 62.

**LAWTON METROPOLITAN AREA
TRANSPORTATION IMPROVEMENT PROGRAM
FEDERAL FISCAL YEARS 2003-2005**

Railroad Crossings - These funds may be spent on railroad crossings statewide for modernization and safety improvements.

Recreational Trails - These funds can only be used by ODOT.

Right-of-Way Clearance - These funds can only be used by ODOT for the demolition, removal and disposal of obstructions on public right-of-way that require removal prior to utility relocation or project startup.

Safety Projects - This funding category can only be used by ODOT for small scale traffic/safety improvement to include: traffic signals, intersection modification, lighting, interconnecting systems, guardrail, delineation, etc.

Surface Transportation Program (STP) - STP funds may be spent on roads that are functionally classified as a collector or higher for urban streets and as a major collector or higher for rural areas.

Local Funding/Capital Improvement Program - The residents of the City of Lawton approved a 1/4 cent sales tax in November 1999. A portion of the proceeds from this source will provide the local match needed to reconstruct the following projects:

- 38th between Cache Road and Rogers Lane; and
- Flower Mound Road between Gore Boulevard and Rogers Lane; and
- Gore Boulevard between SW 67th & SW 82nd Streets.

2025 Long Range-Transportation Plan Compliance

During FFY 2001-2003, progress was made toward implementing the 2025 LRTP, as well as other related accomplishments as noted below:

- 82nd Street from Lee Blvd to Highway US 62

- Final design of NW 38th Street between Cache Road and Rogers Lane (Highway US 62)
- Final design of Flower Mound Road between Lee Boulevard and Gore Boulevard
- Preliminary design completed - reconstruction of Flower Mound Road from Gore Boulevard to Rogers Lane
- Preliminary design of West Gore Boulevard between 67th and 82nd Streets
- Implementation of public transportation system
- Development and implementation of Air Quality Awareness Program.

Transit System

The Lawton Area Transit System (LATS) operates a fixed route service with complimentary paratransit service. Ten buses operate on five fixed routes with the location of the central transfer site located in the 400 Block of SW B Avenue. The City of Lawton Transit Trust Authority on February 13, 2001 contracted with McDonald Transit Associates, Inc. to operate the system. Funding for LATS is provided by the Federal Transit Administration (Section 5307, 5309) and local sources.

In addition to LATS transit projects on behalf of non-profit corporations are programmed under the FTA Section 5310 Specialized Transportation Program administered by the Oklahoma Department of Human Services, Aging Services Division.

Air Quality

Air quality planning activities are developed by the Lawton Metropolitan Area Air Quality Committee (LMAAQC) and approved by the LMAPC, TTC, TPC and City Council. The Oklahoma De-

**LAWTON METROPOLITAN AREA
TRANSPORTATION IMPROVEMENT PROGRAM
FEDERAL FISCAL YEARS 2003-2005**

partment of Environmental Quality operates in Lawton two air quality-monitoring stations, located at the USPHS Hospital and the Comanche County Fairgrounds. The station at the Hospital continuously samples the air in Lawton for Ozone, Carbon Monoxide, Nitrogen Dioxide, Sulfur Dioxide, Lead and Particulate Matter 2.5. The station at the Fairgrounds continuously samples the air for Particulate Matter 10. Most vital to transportation planning is adherence to the National Ambient Air Quality Standards (NAAQS), which are based on Ozone levels. The Environmental Protection Agency (EPA) promulgated a new 8-hour ozone NAAQS in July 1997 and with these standards will designate communities exceeding the standards as *non-attainment*.

Designation of *non-attainment* is made by the EPA at the Metropolitan Statistical Area (MSA) level. Initially following a *non-attainment* status, the Transportation Improvement Program and long range transportation plan must be updated. In fact, according to the "Statewide & Metropolitan Planning Rule," *non-attainment* areas are required to update their transportation plans every three years, including evaluation of the impact of transportation improvements on air quality. That is to say, plans in a *non-attainment* area are no longer based solely on capacity or mobility needs, but also on their contribution to reducing emissions.

Public Involvement

Changes in federal transportation law, brought on by the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991, require MPOs to expand opportunities for the public to participate in transportation planning - at all phase of the transportation planning process. Citizen input is an important step in the development of plans and programs that meet the area's transportation needs while minimizing any negative environmental or social impact. Each year the Planning Department staff compiles a list of projects from various agencies. The projects are then placed onto a draft TIP and forward to ODOT for comments. The LMAPC schedules a 45 day public review and comment period prior to adoption or

amendment of the TIP. After this period, if there are not comments that require major changes, the LMAPC and Transportation Policy Committee (TPC) approve the final TIP. It is then forwarded to ODOT, FHWA and FTA. The Transportation Commission (Governor's designated Commission for transportation) approves the final TIP in its entirety for adoption into the State Transportation Improvement Program (STIP).

Inclusion of Indian Reservation Roads Program

Title 23 United States Code (U.S.C.) requires Indian tribal governments, in cooperation with the Bureau of Indian Affairs (BIA) and as may be appropriate with State, local governments or MPOs to develop a TIP. The MPO as the coordinating agency for surface transportation projects in the LMA has identified Indian Reservation Road (IRR) projects proposed for construction with Highway Trust Funds. Moreover, the TPC has amended the bylaws of the TTC to include representatives from area tribes (Apache, Comanche and Kiowa) in an effort to encourage participation from tribal officials in transportation planning. Tables 9 and 10 identify IRR surface transportation projects in the LMA.

Table 9 - Federal Fiscal Year 2003 - Indian Reservation Road Projects

Project No./Route	Project Description	Federal	State	Local	Total
B06118/6865	Comanche Visitor's Center	\$500,000.00	.00	.00	\$500,000.00
	Total	\$500,000.00	.00	.00	\$500,000.00

Table 10 - Federal Fiscal Year 2004 - Indian Reservation Road Projects

Project No./Route	Project Description	Federal	State	Local	Total
B06	Tinney Road Bridge	\$300,000.00	.00	.00	\$300,000.00
	Total	\$300,000.00	.00	.00	\$300,000.00
