Re: Oklahoma Department of Transportation 2016 TIGER Grant Application.

Dear Secretary Foxx:

It is Union Pacific Railroad's (UPRR) understanding that the Oklahoma Department of Transportation (ODOT) has submitted a TIGER grant application for 27 crossing improvements in rural Oklahoma. UPRR values our relationship with ODOT and currently supports their project. Furthermore, if awarded a TIGER grant, we pledge to work with the parties involved to ensure final agreements comply with Code of Federal Regulations Title 23, Part 646.210 funding requirements, the master agreement between ODOT and UPRR, and our engineering and safety requirements. Thank you for your consideration and please feel free to contact me if you have any questions.

Sincerely,
