

Contract Authority

Additional Quick Reference Guides, training documents, and the Construction and Materials User Guides are available from ODOT.

Background:

 Contract Authority on a Contract allows the ability to give access to a contract to a person and a specific role for that person to a contract that they currently do not have access to via Administrative Offices. Contract Authority can be given for a date range by entering the Effective Date and a future Expiration Date. When that Expiration date is reached, the access to that person and the role provide will automatically expire.

Role(s): ODOT - Contract Activator & Residency Administration

Managing Contract Authority:

- 1. From the Construction component, click the **Contract Administration** link.
- 2. Search for the contract to activate.
- 3. Click the **Contract ID** link.
- 4. Click the **Contract Authority** tab.
- 5. View or modify the contract authority information on the contract.

Contract Authority

Adding Contract Specific Contract Authority:

- 1. From the **Contract Authority** tab, click the **New** button.
- 2. In the **Person** field, search for and select the user to grant Contract Specific Contract Authority.
- 3. In the **Role** field, search for and select the role to assign to the user.
 - i. **Note:** The system will only display the roles that the person has assigned to their user record.
- 4. Enter an **Effective Date** by typing in a date or selecting one from the calendar icon.
 - i. Note: You may enter an expiration date if one is known.
- 5. Select a status from the **Status** drop-down menu.
